

there any truth in that?

A Not at all; I may have made some remark like that in one of the fire houses.

BY MR. STUDER:

Q What was the remark that he did make in the fire house?

A I haven't any recollection of it; just something maybe in those words. It was just like one of those blamed fool things or it might have been a premonition, you know how people have them and they come to you.

BY MR. PFEIFFER:

Q You mean whatever was said was said by you because of the fact that Hall had not been home all night?

A I haven't any idea why.

Q You aren't sure you did say it?

A It has been published so much it seems to have been pushed into my mouth.

Q You have heard it said that you said it so often?

A Yes. maybe it is what they call second thought you know.

MR. STUDER: Was this on Friday?

MR. PALZER: Yes, on Friday.

Q This was said, that he said something to somebody on Friday.
